# PRESENCE

The workplace solution.

## ACHIEVING EFFICIENCY THROUGH SPACE AND COLLABORATION

Designed with the intention to solve many organizations' problems, PRESENCE provides the solutions for the ever changing office environment and set-up. It aims to increase work and space efficiency by meeting the needs of individuals and teams.

### Organizing Work Tools.

Organizing work tools is a breeze. With the hanging tile panels, small tools and documents can be kept off the work surface while still being visible and within your reach.

### Panels Tiles.

Flexibility in choosing the panel tiles. Panels and glass screens keep the look clean, light and smart.

### Performance.

A high performance office requires highly productive workers. PRESENCE was designed based on thoughtful details to increase comfort level and also improve efficiency so workers can reach their full potential.

### Panels.

A space created with higher panels provides both visual and audio privacy, enabling increased concentration and creativity.

## OPTIMIZING YOUR CREATIVITY AND THE USE OF SPACE

PRESENCE is straightforward, functional and flexible in many ways. The modular workspace system makes it flexible to accommodate different workplace settings and configurations. From individual focus to team work formation style, this flexibility allows maximum use of the office space.

### Team Work.

The workplace has evolved. Each of us has to connect, work as a team, collaborate, communicate and at the same time be creative, be more efficient in a short time period, but all within a smaller space. With a flexible layout and configuration, PRESENCE helps to achieve what every organizations strive to be.

### Work-solution.

Complete with a selection of work top surfaces, accessories and panel sizes, PRESENCE creates a personalized and productive place to work in. A true work solution for the fast and dynamic organizations.

### Adaptable.

PRESENCE provides a flexible configurations to adapt to the demanding work environment, not just to fulfill the workers' needs but also the organizations' growth.

### Responsible.

From research and development to roll out of the product, KOKUYO takes the responsibility to focus on creating sustainable products along the way.

### Collaboration and Mobility.

PRESENCE support highly collaborative users who need space as well as workers who need to be mobile and not stay at their desk all day long. The flexibility easily adapts to the work environment changes.

### Visibility.

A lower panel allows for eye contact when necessary, yet provides privacy and a space to concentrate at other times.

### Panel Heights.

Customization of panel heights based on workplace preferences and adaptability.

## CREATE YOUR VERY OWN DYNAMIC WORKPLACE

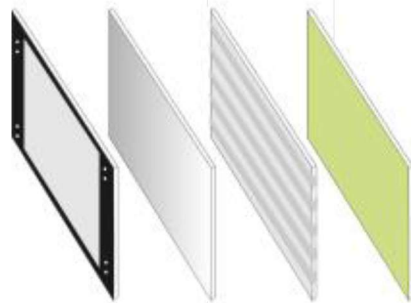

Variation of panel heights and tiles provides the flexibility in creating a dynamic workplace.  
 Selections from seated to standing privacy.  
 PRESENCE series goes beyond the basic requirements and adapts to workers' satisfaction at a higher level..
